SUMMARY

Senior Frontend Engineer with 2 decades of experience in enterprise application development, specializing in React.js, JavaScript, HTML5, CSS3, and UI modernization initiatives. Proven experience in migrating legacy applications to modern React architectures, building reusable component libraries, integrating REST APIs, implementing automated testing frameworks, and collaborating with cross-functional teams to deliver scalable, high-performance web applications.

TECHNICAL SKILLS

Project Management & Leadership: Client Relationship Management, Cross-Vertical Team Leadership, Feature Integration, Software Development & Testing, Coding & Troubleshooting
Databases: Oracle, SQL Server, PostgreSQL, MongoDB
Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Flexbox, CSS Grid, Bootstrap, Tailwind CSS, TypeScript
State Management: Redux, React Context API, React Hooks
Tooling: Webpack, Babel, NPM
Testing: Karma, Jest, Mocha, Junit
Backend Exposure: Java, REST API Integration, Spring boot, Microservices
IDEs: Eclipse, RAD, IntelliJ IDEA, Sublime Text
Version Control: CVS, Git, GitHub
Project Tools: JIRA, Trello, Figma
Methodologies: Waterfall, Agile, Scrum, XP

PROFESSIONAL EXPERIENCE

Sr. Software Engineer B3

Cognizant

- Led delivery of checkout flow with 5 devs across vendors; shipped ReactJS/Redux (JavaScript) features, cutting drop-off 22%.
- Designed and implemented reusable React components and shared UI libraries, reducing code duplication and accelerating feature delivery across teams.
- Refactored a high-traffic module with advanced React hooks, raising overall application performance by 15%.
- Implemented application state management using Redux and React Context, enabling predictable data flow and improved maintainability of complex user interfaces.
- Collaborated with UI/UX teams to translate Figma designs into responsive, pixel-perfect React Applications
- Converted class components to functional components, shrinking the codebase by 30% and improving maintainability.
- Maintained federated repos and independent CI/CD pipelines for micro-frontends, enabling runtime integration across teams.
- Automated front-end tests (Karma/Jasmine), reducing bug resolution time by 20%.

Technologies Used: *React, Redux, Agile, React hooks, Webpack Module Federation, CI/CD*

Team Lead

Infosys

- Directed migration from a legacy app to a tablet-friendly Android web-based app, increasing construction-site user retention by 30%.
- Gathered user feedback and prioritized the backlog for continuous improvement, launching 7 new product features.
- Integrated RESTful APIs to retrieve and display real-time data, enabling more dynamic application behavior.
- Partnered with client stakeholders to capture requirements, increasing project clarity and reducing rework by 5%.

Technologies Used: *Android, RESTful APIs*

Backend Software Developer

Infosys

- Produced data-driven insights by querying and analyzing datasets using SQL and Excel to support informed decision-making.
- Tuned Oracle SQL queries and indexing, cutting query times by 25%.

Technologies Used: *SQL, Excel, Oracle*

Technologies Used: *SQL, Excel, Oracle*

EDUCATION

Executive PG in Software Development specialized in FullStack IIIT-B & upGrad	2023
Bachelor of Technology in IT Mahatma Gandhi University	2005

PROJECTS AND CASE STUDIES

Movie Booking React App

- Delivered a full-lifecycle movie ticketing application with a React UI and full-stack purchase workflows.

Restaurant Finder

- Designed and implemented RESTful services, deployed on a Eureka server, and connected them to the React frontend.

Doctors Appointment Booking

- Developed appointment scheduling pages using React and Redux for predictable client-side state management.
- Created backend APIs and wired them into the frontend to support end-to-end reservation flows.

AI-Enhanced Sprint Dashboard (React, Java, Python)

- Built an AI-augmented sprint tracking dashboard using Java, React, and Python, leveraging GPT for backlog analysis and sprint risk prediction.

CERTIFICATIONS

- Certified Associate in Project Management from PMI | Jul '25
- SCJP - J2SE 5.0 | Jan '09

CAREER BREAK (UPSKILLING)

- Completed project management certifications and upskilled in web development and AI courses.
